

**Programmable Power Supply**

**QJ3005GIII**

**FEATURES**

- 1.High resolution 10mV/1mA, low noise and ripple.
- 2.Over current protection
- 3.Large LED display
- 4.Output On/OFF function
- 5.Panel save and recall
- 6.USB or RS-232 interface for communication
- 7.User friendly PC control software
- 8.Robust construction for education, industrial and professional users

**Specifications**

<b>Models</b>	QJ3005GIII
<b>Channel</b>	Multiple channel
<b>Output voltage</b>	0~30V
<b>Ripple &amp; noise</b>	≤ 1.0mV(rms)
<b>Output current</b>	0~5A
<b>Ripple Current</b>	3mA(rms)
<b>Short Circuit &amp; Overload Protection</b>	
<b>AC input</b>	AC110 or 220V
<b>Frequency</b>	50/60Hz±2Hz
<b>Operating Temperature</b>	0~40°C, <90% Relative Humidity
<b>Safety Standard</b>	CE

- All values are based on the standard ambient Temperature 25°C and Pressure 0.1Mpa
- SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT PRIOR NOTICE
